Cbonds Add-in for Office 365 load guide

Cbonds

Contents

Get the Cbonds Add-in for Excel

1. Click **Insert** > **Get Add-ins**.
2. In the Office Add-ins box, browse for the add-in you want, or search for the **Cbonds Add-in** by using the Search box.
3. Click an add-in to read more about it, including a longer description and customer reviews, if available. Then, click **Add**.

   If you're prompted to sign in, type the email address and password you use to sign in to Office programs. Review the privacy information, and then click **Continue** (for free add-ins), or confirm billing information and complete your purchase.

> **If you** previously **installed the add-in** by placing **the manifest.xml** file in **a shared folder**, then **we recommend deleting or renaming the manifest.xml** file to avoid a conflict between the two Cbonds (Office 365) add-ins installed in different ways.

Start using the Cbonds Add-in with Excel

1. Click **Insert** > **My Add-ins**..
2. Double-click the Cbonds Add-in from the **My Add-ins** group in the Office Add-ins box to start using it. You can also select the add-in and then click **Insert** to start using the add-in.

Remove an Office add-in

1. Click **Insert** > **My Add-ins**.
2. In the **Office Add-ins** window, in the **My Add-ins** tab, right-click on the add-in you would like to remove and select **Remove**.
3. Click **Remove** in the confirmation window.
